

Materials List

Painting Studio - Instructor Robert Caldwell

These materials are required for new painting students and those students progressing from drawing to painting. Color theory requires specific colors, please do not substitute any of these colors.

These materials can easily be ordered from [Blick Art Materials](#) and are usually delivered to your front door in about a week's time if everything is in stock. Robert's suggestion is to give the order two weeks for delivery. If you choose to buy your materials at a local art store, please make sure to not buy any colors that have the word "hue" in the them. Colors containing the word "hue" are not true colors and do not give us the same results that we require for color theory. If you have any questions about the painting materials, please contact Robert at instruction@rlcaldwell.com.

Required (As a new student you MUST have everything listed on this list):

Paint (oil, watercolor and acrylic)

- Alizarin Crimson (Cool Red)
- Cadmium Red Light (Warm Red)
